PF2

Face Recognition & Video Smart Lock

Always know who's at the door –

- Via the WIFI connection, you can remotely send PIN codes and view the real-time situation at the door from PF2 lock APP.

Make real-time communication everywhere –

- When the visitor presses the doorbell, a message will push to the APP instantly, and you could start a two-way intercom.

Instantly protect home security at all time –

- When someone moves around the front door, PF2 lock will identify abnormal dynamics by instantly capturing photo or video with the infrared sensor.

- Fast Swedish FPC fingerprint recognition speed is less than 0.5s.

- Care more about safety of children and pets with Night Latch Function.
