Code Unlock

Card Unlock

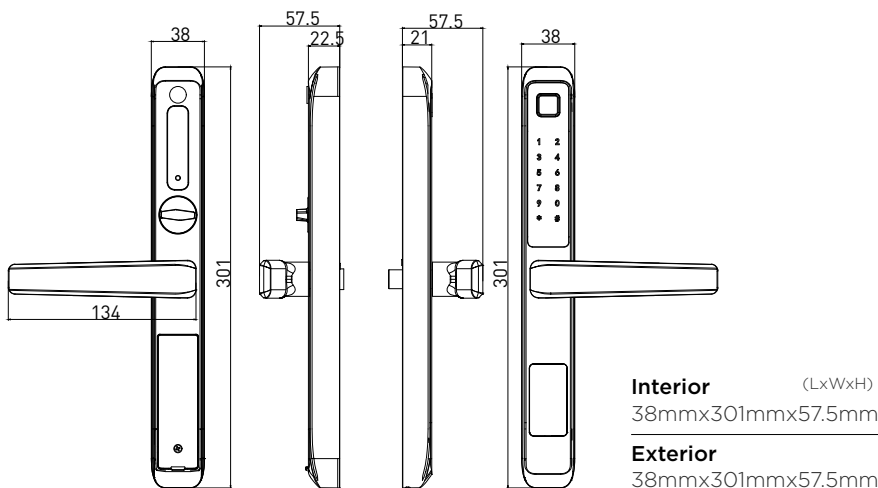

Mechanical Key

Feature

- The PF6 is designed to fit on varying hinged door stile widths with 30mm or 60mm backsets. This makes it ideal for use on external access doors off bedrooms or living areas.
- Intuitive & Quick locking: lift lever upward and lock the door swiftly at one go.
- Simple unlock : Push down the interior lever to unlock an open all at once.
- Two-factor authentication : Two unlocking methods can be set at will to achieve double protection.
